Owner & Web Developer

May 2006 – Present

Clarity Design; Coeur d'Alene, ID

Design and develop websites for clients in multiple fields, including e-commerce.

See: storeporter.com, countryvillageshoppe.com (more upon request)

Junior Researcher

September 2009 – June 2011

National Institute for Advanced Transportation Technology; Moscow, ID

Created TrafficSense application, designed to provide a comprehensive, accessible visual representation of complex traffic flow data in a user-friendly environment; required team-based working skills using SCRUM development and planning method, knowledge of object-oriented programming, and time-budgeting ability.

Photo Retoucher

May 2008 – August 2008

Quicksilver Photography; Coeur d'Alene ID

Retouched studio photographs using Adobe Photoshop and acted as supplemental wedding photographer. Required the ability to function in a fast-paced environment with time-critical assignments, and exercise independent decision-making skills, improvisation, and self-direction.

Education

University of Idaho, Moscow
